Forecast for Friday 24 Nov 2023

Weather: A cloudy start to the day with the chance of a few light showers, falling as sleet or brief snow on highest summits, before easing away early afternoon. Cloud also clearing to leave prolonged sunshine and clear skies overnight.

Chance of cloud-free hill tops above 800m: 80% increasing to near 100% during the afternoon

Low Cloud and visibility: Occasional cloud at 800m during the morning, mainly in association with showers. This clearing by the afternoon. Otherwise very good to excellent visibility of distant hills, only temporarily reducing in any showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

An excellent late autumn day on the hills, especially once any early morning cloud and isolated showers clear. It will be feeling cold however, especially at height and in any brisk winds. Extra layers essential, particularly for those wishing to stop, be it for lunch or just to enjoy the expansive views from the tops.

Forecast for Saturday 25 Nov 2023

Weather: Staying dry, largely sunny but also cold. Some lower sheltered valleys, and also highest summits remaining frozen. Perhaps some high cloud at times but remaining bright.

Maximum wind: Light and variable

Chance of cloud-free hill tops above 800m: Near 100%

Low Cloud and visibility: Excellent view of distant hills, especially from the tops.

Temperature: **Valleys:** Minus 2 Celsius rising to Plus 4 Celsius
At 800m: Minus 4 Celsius rising to Zero Celsius
Freezing level: 200m at first, rising to 800m by the evening.
